When: Fall 2017 (Term 2181 or 18-1)

What & Where:
- Lectures: Tuesday & Thursday, 11:00am – 12:15 pm @ 5129 Sennott Square
- Recitations: Friday 11:00 – 11:50am @ 6110 Sennott Square (CRN 17659 & 17657)
  Friday 2:00 – 2:50pm @ 6110 Sennott Square (CRN 17660 & 18348)

Instructor: Prof. Panos K. Chrysanthis
  Email: panos@cs.pitt.edu
  Web: http://www.cs.pitt.edu/~panos
  Office: 6421 Sennott Square
  Phone: 412-624-8924

Recitations Instructor & TA: Wei Guo
  Email: cs1555-staff@cs.pitt.edu
  Web: http://people.cs.pitt.edu/~weg21
  Office: 5808 Sennott Square
  Office hours: Monday, 10:00am – 12:00pm
  Wednesday, 10:00am – 12:00pm
  Friday, 10:00am–11:00 am
  Friday, 3:00pm – 4:00 pm

Course Description: There are two principle objectives for this course. First, to introduce the fundamental
corcepts necessary for the design and use of a database. Second, to provide practical experience in
applying these concepts using commercial database management systems.

Prerequisites: A grade of C or better in CS 0441 and CS 0445 is required. Working knowledge of Java and
familiarity with Unix are assumed.

Class Web Page: http://db.cs.pitt.edu/courses/cs1555/current.term
All handouts and class notes will be published on the class web page. You are expected to check this
page frequently (at least twice a week).

Learning SQL, Alan Beaulieu, O’Reilly 2005 (Available online from campus computers through Sa-
fari Bookshelf – link at web site).

Note on Email & Communication: In order to achieve the highest level of communication outside the
classroom, we will use the Piazza system for all questions and clarifications on lectures, recitations
and assignments. You should use email only for confidential matters. For a confidential email to the
instructor and the TA, you should send the email to cs1555-staff@cs.pitt.edu. Note that this email
address works only within the pitt.edu domain. If you have a confidential matter for the instructor
only, then please email the instructor directly, but make sure to include the keyword cs1555 or cs2055
in the subject line of your email message. We will make every effort to respond to all email requests
within one business day at the latest. Due to spam filtering, you should always try to use your pitt
email address when sending email and include your full name.

Course Grading:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework Assignments</td>
<td>20%</td>
</tr>
<tr>
<td>Term Project</td>
<td>15%</td>
</tr>
<tr>
<td>Midterm Exam</td>
<td>30%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>30%</td>
</tr>
<tr>
<td>Recitation &amp; Class Participation</td>
<td>5%</td>
</tr>
</tbody>
</table>

Grading Policy: The grade scaling will be computed based on the performance of the undergraduate students only. Graduate students will then be graded on this undergraduate scale.

Attendance and participation in lecture and recitation may be used to decide borderline grades.

Unless explicitly noted otherwise, the work in this course is to be done independently. Discussions with other students on the assignments should be limited to understanding the statement of the problems. Cheating in any way, including giving your work to someone else will result in an F for the course and a report to the appropriate University authority.

Marks can be appealed up to two weeks after they have been posted, after that no appeals will be considered.

Submission & Late Policy: All written assignments must be submitted electronically and there is no late submission. An assignment which is late will be accepted only under special circumstances with the instructor’s permission prior to its deadline. In such a case, the instructor will determine any penalty in a fair manner.

Make-up Policy: Students are expected to take both midterm and final exams. Make-up exams will only be given in the event of a medical situation or an emergency, and only if this is documented and the instructor is notified immediately if in advance is not possible. Missing an exam will result in a zero for the exam.

Students with Disabilities: If you have a disability for which you are or may be requesting an accommodation, you are encouraged to contact both your instructor and Disability Resources and Services, 140 William Pitt Union, 412-648-7890 or 412-383-7355 (TTY) as early as possible in the term.

Religious Observance: In order to accommodate the observance of religious holidays, students should inform the instructor of any such days within the first two weeks of the term by email (Sept. 9).

Audio/Video Recording - Use of Cell Phones To ensure the free & open discussion of ideas, students may not record classroom lectures, discussion and/or activities without the advance written permission of the instructor, and any such recording properly approved in advance can be used solely for the student’s own private use. Also, any use of Cell Phones during lectures is disruptive and is not permitted.

Copyrighted Material All material provided through this web site is subject to copyright. This applies to class/recitation notes, slides, assignments, solutions, project descriptions, etc.

You are allowed (and expected!) to use all the provided material for personal use. However, you are strictly prohibited from sharing the material with others in general and from posting the material on the Web or other file sharing venues in particular.

Outline: A detailed reading guide will be published on the web page, along with the class notes.

1. Relational/Object-Relational Data Model, Relational Databases – SQL, QBE
2. Database Design – Relational Normal Forms & Entity-Relationship Data Model
3. Storage and File Organizations, Access Methods
