Given the following set of numbers: 71, 20, 48, 63, 36, 85, 69, 81, 74, 88, 99, 96

(a) Create an equal-width histogram with 4 buckets

Socrative Q1:
What is the second value of the third bucket in the resulting histogram?

(b) Create an equal-frequency (equal-depth) histogram with 4 buckets

Socrative Q2:
What is the second value of the third bucket in the resulting histogram?
